**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

After careful consideration of applicants' amendment and arguments, it was decided to allow the instant claims. Williams, et al. (40) does not teach bonding 12,000-30,000 MW PEG at 12-30 PEG molecules per uricase protein unit. Although it may have been obvious to try these MW PEGs at these PEG concentrations from the shape of the curve for 30 kDa PEG in example Fig. 1A, these specific MWs and concentrations are not disclosed in the prior art of record and therefore nothing is known about their effect. These ranges are generally taught in the specification as outlined in applicants' remarks and the 7/29/03 declaration by Clark teaches that these concentrations and MWs have been tested in specific experiments. It is noted that the first sentence of the last paragraph on page 8 of applicants' Remarks indicating that the Clark declaration was attached to this amendment should have referred to the previously submitted declaration. This was confirmed in a telephone call to Mr. Patrick J. Farley on February 1, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Patterson, Jr., PhD, whose telephone number is 571-272-0936. The examiner can normally be reached on Monday - Friday from 7:30 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura Achutamurthy, can be reached on 571-272-0928. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
